SUMMARY

Detail-oriented Computer Science undergraduate with strong problem-solving skills and foundational knowledge in Artificial Intelligence, Machine Learning, and Data Processing. Experienced in working with structured and unstructured data, with a keen interest in Generative AI, prompt engineering, and data annotation. Demonstrates strong written and verbal communication skills, adaptability to new tools, and ability to work both independently and collaboratively.

EDUCATION

Bachelor of Technology (B.Tech.) – Computer Science and Engineering

Gaya College of Engineering, Gaya, Bihar, India | Expected Graduation: 2026 | CGPA: 8.56 / 10

Diploma – Computer Science and Engineering

Government Polytechnic, Muzaffarpur, Bihar, India | 2020-23 | CGPA: 8.58 / 10

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, Go

Web Development: HTML, CSS, JavaScript, React, Node.js

Database: MySQL, MongoDB

Backend: Python, Java

Tools & Platforms: Git, GitHub, Linux, Docker

Core Computer Science: DSA, OOPs, Operating Systems, DBMS, Computer Networks, SDLC

AI/ML & Data: Machine Learning Basics, NLP, Prompt Engineering (LLMs)

Concepts: Debugging, Multithreading (Basic), API Design

PROJECT

[AI Skill Gap Analyzer](#) — Resume & Skill Evaluation System | Tech Stack: Python, NLP, TF-IDF | [Live](#)

- Analyzed resumes against job descriptions to identify skill gaps using NLP techniques.
- Implemented TF-IDF and cosine similarity for accurate skill matching and scoring.
- Generated personalized recommendations to improve candidate-job alignment.

[PromptCraft](#) — Prompt Engineering & LLM Evaluation Toolkit | Tech Stack: Python, LLM APIs, NLP | [Live](#)

- Designed and optimized prompts (few-shot, role-based) for tasks like summarization and Q&A.
- Evaluated LLM outputs using data annotation for accuracy, coherence, and consistency.
- Built a reusable prompt library to improve response quality across use cases..

INTERNSHIP

Full-Stack Development Intern | Bytical Solutions Private Limited | May 2025 – November 2025

- Integrated JWT authentication and autosave features to enhance security and UX.
- Built scalable APIs and real-time components using Fast API, React, and MongoDB.
- Collaborated with cross-functional teams to improve UX and backend performance.

ACHIEVEMENTS

- Solved 1000+ coding problems across coding platforms.
- Participated in ICPC Contest in 2024 and 2025.
- Participated in State and National level hackathons.

CERTIFICATIONS

- Microsoft Certified** - Azure AI Engineer Associate
- NPTEL** - Problem Solving Through Programming in C, Programming in Java, Introduction to Machine Learning
- Cisco Networking Academy**- Networking Essentials, Programming Essentials in C++
- Edunet Foundation** - Foundations of AI
